Democratic State Committee Endorses Allentown Nominees

## DEWALT MADE CHAIRMAN

Short and Harmonious Session—Big Representation—Berry May Yet Be Placed on Ticket.

Harrisburg, July 20—With rays of renewed harmony lighting its hopes, the Democratic State Central Committee held the shortest session in its history today, being in session but 20 minutes, and in that time re-elected State Chairman Arthur G. Dewalt of Allentown, and Treasurer Samuel Kunkel of Harrisburg; indorsed the ticket nominated at Allentown in June and authorized the issuance of an appeal to the voters of Pennsylvania to support it.

Nothing was said about the Democrats who have allied themselves with the third party movement or those who have been in revolt since the nomination of Senator Webster Grim of Doylestown for Governor, and the reported declination of Samuel B. Price of Scranton to run for Lieutenant Governor was not even referred to in the meeting.

The attendance at the committee was large, less than a dozen counties being unrepresented, and, in addition, many county leaders were present.

## Will Issue An Appeal

O. B. Dickinson of Chester and Dr. Johnson of Delaware County saw Senator Grim and various state leaders, and soon after a rumor was spread that there was a possibility that William H. Berry might, after all, appear as a candidate for Lieutenant Governor on the Democratic ticket. Dickinson and others declined to speak upon this contingency, but the fact that Price's declination was not referred to, though Chairman Dewalt is said to have received it, and that the Executive Committee will handle it when received, lent color to the reports.

The committee was called to order by George D. Herbert, resident secretary. The proceedings were brief. E. S. Kremp of Reading was chosen temporary chairman, and after roll-call Maj. James F. Mickel of Bedford moved to indorse the Allentown ticket. This was done at once, and then the chairman of the State Committee and the chairman of the meeting were directed to issue an appeal to the voters.

Chairman Dewalt was re-elected on motion of George W. A. McDonauld, who referred to his absence because of illness, and Treasurer Kunkel was elected on motion of W. J. Brennan of Pittsburg.

On motion of Mr. Brennan the following resolution was adopted:

"Resolved, That the chairman of this meeting, in conjunction with the chairman of the State Central Committee, be authorized and directed to prepare an address and appeal to the voters of Pennsylvania, and particularly to the Democrats, to support and work for the election of the Democratic candidates at the ensuing election."

Immediately after the adoption of this resolution A. A. Ballinger of Huntingdon asked what progress had been made by the committee to raise \$20,000 for organization of the Democrats in the state.

"I understand that the committee has organized, but the chairman, Vance C. McCormick of Harrisburg, is in Europe, and the committee awaits his return before taking any steps," replied W. J. Brennan.

Immediately after adjournment division elections were held, in which Mayor S. M. Hoyer of Altoona was elected Division Chairman for this district, to succeed B. J. Clark.

The Executive Committee fixed August 3 and the Hotel Walton, Philadelphia, for the notification meeting. The Notification Committee is to be named later by John G. Harman, who was chairman of the Allentown convention.

He, being a self-made man, rose because of merit, and many are those who owe their stations in life to his advice and assistance. His, in short, was a type of manhood most valuable in any community.

## THE BEN GREET PLAYS

Two Performances at Bedford Springs Next Week.

Ben Greet, the world's famous actor-manager and producer, with his number one company of woodland players, will pay a flying visit here Tuesday and Wednesday, July 26 and 27.

This is the same company that played for thirteen weeks at the Garden Theatre, New York, this season, where they gave one hundred and six performances in all, producing eighteen plays. That engagement was followed by two weeks in Philadelphia, three days at Atlantic City, and three days at Baltimore, opening at the Belasco Theatre, Washington, D. C., on May 16 and have been there until now. Their engagement at Washington closes tomorrow night. From here they go to Cincinnati, where they have a \$6,000 contract.

Not another company in existence has such an extensive repertoire. Their list contains over four hundred plays, and Mr. Greet can produce anything from a Greek tragedy to a modern farce, with two weeks' notice. Of Ben Greet and his players much can be said; many of his company have been with him a number of years, playing all kinds of plays with wonderful skill. They have many imitators, but none good enough to make even fair competition.

Tuesday evening at 8:15 o'clock, the play selected for presentation under the trees of the Bedford Springs Hotel Golf Links is Shakespeare's comedy "A Midsummer Night's Dream." A string orchestra will play the strains of Mendelssohn's music, and the grounds will be lit up with calcium lights. Wednesday afternoon at 2 o'clock "As You Like It" will be presented.

The Ben Greet players have presented open air plays for twenty consecutive years at Oxford and Cambridge Universities, and at all the ancestral homes of England. During Mr. Greet's stay in this country he has played at every state university and every college and high school of note.

These performances are especially good for children, but old and young will enjoy them. The visit to Bedford Springs should prove a great success, and no one should miss this opportunity of seeing this most talented company. The price of admission is \$1 for one performance or \$1.50 for both. Tickets can be procured now at Dull's Drug Store.

## Household Notes

Lemon and salt will remove stains from varnished wood.

Delicately colored silk hose should be dried in a dark place.

Borax is used for giving additional gloss to starch fabrics.

Rub new shoes with a slice of raw potato, and they will polish as easily as old ones.

Do not tear carpet rags, as the edges will be rough and will catch dust. Instead, cut them.

Do not use ammonia to clean black gowns; this is a common cleanser, but it makes woollens look rusty.

Large eyelets in embroidery will keep their shape better if they are not cut until the embroidery is done.

A little mashed potato is a great improvement when making suet crust for puddings of meat and fruit.

Use borax for softening the water for the bath. It is also a valuable disinfectant and antiseptic.

Nickel and silver may be kept bright by rubbing them with a woolen cloth saturated with ammonia.

Never give sugar water to a baby. It often causes colic. Teach the baby to take unsweetened water instead.

A high luster is given to silver by rubbing it with lemon and then with alcohol and whiting mixed together.

For mending a tear in a garment, there is probably no better helper than a piece of black, worn-out stocking.

To make a green mayonnaise for a vegetable salad, add scalded chopped parsley to an ordinary salad dressing.

A tablespoonful of lemon juice to three of olive oil makes a good furniture polish, to be applied with a flannel.

## A FEW SHORT WEEKS

Mr. J. S. Bartell, Edwardsville, Ill., writes: "A few months ago my kidneys became congested. I had severe backache and pain across the kidneys and hips. Foley Kidney Pills promptly cured my backache and corrected the action of my kidneys. This was brought about after my using them for only a few short weeks and I can cheerfully recommend them." Ed. D. Heckerman.

## Children Cry FOR FLETCHER'S CASTORIA

Paris Green on the Cabbage Crop. A Shippensburg man who has been using Paris green to kill the worms that have appeared on the heads of cabbage in his garden, wrote to Prof. H. A. Surace, State Zoologist, asking whether the poison will render the cabbage unfit for use. The Professor answered the letter as follows:

"It will not render cabbage unfit for use to apply Paris green to it. You can use one-half pound of Paris green in fifty gallons of water sprayed on cabbage, and it will kill the worms and not injure the cabbage for food. Apply some soap with it to make it stick. Also, you can use two pounds of arsenate of lead in place of the Paris green. This will stick better, and I much prefer it."

"I have heard that from one-half ounce to one ounce of alum, dissolved in each gallon of water, will destroy the cabbage worm. I have not had opportunity to try it in my experimental work, but hope to do so soon. I would recommend that you try it and report to me results. I can assure you that practically all truck growers now use arsenical poison on cabbage and are satisfied with the results, as it kills the worms, although, of course, it does not kill plant lice, and it is not recommended for this. For aphids or plant lice, I recommend one pound of Whale Oil Soap in five gallons of water."

"Cabbage heads grow from within outward; thus they are constantly throwing out or spreading the leaves to which the poison has been applied. If it headed by throwing the outer leaves inward, there would be greater danger of poisoning."

## USEFUL TO KNOW

Alum meal is excellent for a dry skin.

A cup of hot water drunk as soon as getting up in the morning will hurt none and is positively beneficial to many persons. It is one of the simplest aids to digestion.

An abundance of fresh air is essential to a good complexion and there should be plenty of ventilation in the sleeping room.

Do not apply lotions and pastes to remove freckles and then go out into the wind and sun without a chiffon veil. The latter, worn nearly all the time, is necessary to the success of the remedies.

Massage is not only a beautifying agent, but it is a wonderful cure for neuralgia, if attention is paid especially to the muscles of the eyes and brow. It is excellent also for sleeplessness and all nervous conditions.

Dampened salt applied to a mosquito bite will relieve the itching at once. In fact, dampened salt is a good cure for the bite or sting of any insect. It should be applied quickly and bound tightly over the spot.

Few people know the comfort in summer of a hair pillow. Who would think of sleeping upon a feather bed in August? And yet many of us bury our heads in large, soft, feathery pillows. Suppose you buy a little hair pillow—20 by 15 inches—and make for it a simple slip of linen. Lay your weary head upon this some hot night and you will dream of cooling and refreshing drinks and—possibly of icebergs.

Do not expect hair tonics, dandruff cures and other lotions to produce results at once. Treatment of the scalp and hair is among the very slowest of processes. To be successful there must be weeks of patience and faithfulness in applying the remedies.

Do not throw away your smelling salts when the liquid has evaporated, leaving them dry and you think you have had them so long a time that they are no longer of any use. Renew them. That is, pour over them some perfumed ammonia—violet, lavender or whatever the salts may have been originally.

Dyspepsia is our national ailment. Burdock Blood Bitters is the national cure for it. It strengthens stomach membranes, promotes flow of digestive juices, purifies the blood, builds you up.

## Only Wait!

Sometimes there dawns a sudden brightness.

On days gray and forlorn; Sometimes there springs a sudden lightness.

In hearts long over-borne.

As morning wears to dawning even, Disconsolate and slow,

From the unseen rich strength is given,

And gleams the after-glow.

No soul so dull but feels its sorrow,

No heart but knows its pain,

And longs for some divine tomorrow.

To bring sweet peace again.

In humble home or stately palace

Joy streams when grief is past;

Long patience drains its golden chalice,

And claims her own at last.

—Kate Upson Clark.

## Toward the Light

The first steps in any new work are usually the most difficult. The first lessons in a new study, the first pages in a new book, are the hardest and require the most constant and persistent effort. But in climbing the stairs the first steps are the easiest; it is the last upward stretch that takes time and painful effort. It is so in our lives. We begin with the buoyancy and confidence of youth. There are later periods when we drag the feet and do well to move patiently and carefully, until the light from above brightens and cheers the last effort, and we have reached at last the top.—Exchange.

## THE WIRES

We are the nerves of the world, The threads of fate are we,

Whether in coil and spiral curled, Or flung over land and sea;

From hoards of the ages brought, The great rocks yield our life;

With flame and force is our being wrought,

With throes of toil and strife.

Over the whole round globe

Our mighty web is spun,

Woven out, as a gleaming robe,

In shimmer of snow and sun;

Drawn from the clouds of earth,

By a mounting, hot desire,

We come, to circle its utmost girth

With meshes of prisoned fire.

We span the bounds of space

With burning, outstretched hands;

The speech and soul of a wakening race

Ride on our vivid strands;

We start the viewless waves,

Bearing their hidden song,

And toss them down through our slender staves

To the heart of a waiting throng.

We lift the torch of light;

We drive the wheels of power;

Our careless force, through the day and night,

Smites down the opposing hour;

We make the shining way

On which man's word may fare;

He gives his hope to our vibrant sway,

His dream to our paths of air.

We are the harp of the world,

The chords of life are we;

Through us the song of the sphere is hurled

In a storm of harmony;

Forged in the sullen depths,

Strung through the void above,

We ring with a note that never sleeps—

The note of a world-wide love.

—Marion Couthouy Smith.

## A Good Number

The August Number of Scribner's Magazine has for more than twenty years been a Fiction Number. This year, in addition to an unpublished comedy by the late George Meredith, and Theodore Roosevelt's article on his experiences in Uganda, it will contain fiction by Maurice Hewlett, Richard Harding Davis, E. W. Hornung, Dorothy Canfield, Gerald Chittenden, John R. Spears, Alice Brown, and other noted writers. John Fox, Jr., will have an account of a recent journey which he made to the scene of his novel, "The Little Shepherd of Kingdom Come." There in the mountains he found the counterpart today of "Chad" and "Mother Turner" and a young woman who was more beautiful than the "Melissa" of his story. George Wright, the artist, went over the ground with Mr. Fox, and the illustrations accompanying the article are authentic records of the mountain-people today.

## CATARRH GOES

So Does Sore Throat, Bronchitis, Croup and Asthma.

You can easily tell by reading the symptoms below, whether you have catarrh or not.

Offensive breath, frequent sneezing, discharge from the nose, stoppage of the nose, huskiness of the voice, tickling in throat, a cough, pain in chest, loss of strength, variable appetite, spasms of coughing, low spirited at times, raising of mucus, difficulty in breathing, loss of vital force.

F. W. Jordan has a sensible remedy (money back if it fails) for catarrh, called Ilyomel (pronounced High-o-mel) which is a vaporized air, so antiseptic, that when it is breathed over the inflamed and germ-infested membrane, it kills all germ life, gives relief in two minutes, and cures catarrh.

The price, including hard rubber inhaler, is only \$1.00. The hard rubber pocket inhaler will last a lifetime, so that should you need a second bottle of Ilyomel, you can get it for 50 cents.

You will be pleased with our new job work. Give us a call.

## BOKHARA THE NOBLE.

A City That Does Not Live Up to Its High Sounding Title.

The same manners and customs prevail in the Bokhara of today that were familiar to our night prowling friend of Bagdad. A blindfolded horse still plods round and round beneath a beam, grinding the corn between an upper and a nether millstone. The cotton is still carded by the primitive agency of a double bow, the smaller one affixed to the ceiling and the larger one attached to it by a cord and struck by a mallet so as to cause a sharp rebound. The rehs-i-shariat, or censor of the morals, still rides slowly through the town, compelling the children to attend the schools and their parents the mosques, inspecting the weights and measures and keeping a watch over the behavior of the community as a whole. When a tradesman is found guilty of cheating he is stripped bare in the street, forced to his knees and flogged with a stirrup leather by one of the censor's attendants.

The world moves slowly in Bokhara. The city gates still close with the setting sun. After dark no one is allowed abroad, the only sound at night being the melancholy beating of the watchman's drum as he patrols the streets with a lantern in his quest, unlike Diogenes, of a dishonest man.

With its filth, fanaticism, vice, cruelty and corruption, Bokhara the Noble, as its people insist on calling it, comes nearer to being a hell on earth than any place I know, and that is the best that I can say about it.—E. Alexander Powell in Everybody's.

Parisian Sage is a discovery of a celebrated scientist, who spent the best years of his life perfecting this great hair tonic.

In giving his recipe to the American people he said: "Parisian Sage is the most delightful hair dressing in the world. Jordan sells Parisian Sage at 50 cents a large bottle and guarantees it to do all that is claimed for it, or your money is refunded. It stops falling hair, dandruff and itching scalp in two weeks."

The Outing Magazine for August is a delightful treat for the camper and vacationist. He tells the correct way to make one in "How to Build a Camp Fire." "Deer Farming in the Ozarks" is an account of an unusual experiment successfully developed.

The wonderful development of "man birds" is told in "Hammondsport, an Aeroplane Laboratory." This is the original "fly" town. **Pastor Russell of the Brooklyn Tabernacle---America's Ubiquitous Preacher---His Remarkable Foreign Tour and His Return.**  
**Comments of Foreign Journals on His Work.**

[From the London (England) Christian Globe, May 5, 1910.]

SINCE the days of Henry Ward Beecher and Dr. Talmage no preacher has occupied so prominent a position in the United States of America as Pastor Russell of

the meetings of the International Bible Students' association, which are to be held at the Albert hall on the evening of Sunday next and the two following Sundays. He will in addition visit during the next three weeks the principal cities

strength and his great power of oratory to the millions of public men, "with malice toward none, with charity for all." Above all, the speaker may be described as strictly orthodox. Although Pastor Russell holds to the Bible tenaciously, he claims to be

## PASTOR RUSSELL SPEAKING IN ROYAL ALBERT HALL.

The Royal Albert hall, London, England, is the largest and finest auditorium in the world. It was here that Pastor Russell delivered his now famous remarks of consolation and comfort to the bereaved royal family of the late King Edward VII. Pastor Russell was the principal speaker in the three Royal Albert hall 1910 Sunday May meetings of the International Bible Students' Association held May 8, 15 and 22 respectively. His opening remarks

REPRODUCED FROM "BLACK AND WHITE," LONDON'S PRINCIPAL ILLUSTRATED NEWSPAPER.

on the Sunday evening following the death of King Edward VII. were well received by the British public, being cable-d to and published by the various leading papers in New York city. During his European tour the principal London and New York newspapers made very favorable comments concerning Pastor Russell and his work.

Brooklyn Tabernacle holds today. Now we on the... of the... are to be... to... the... of... to... overflowing the... back to the United States.

and towns in England, Scotland and Ireland.

Like Beecher and Talmage before him, the same City of Churches, Pastor Russell is an independent teacher, not allied to any particular denomination or organization, giving his time, his

proved that on some points it has been misunderstood by both friends and foes.

In his search for a basis upon which to build his hope for future bliss, he undertook a lengthy investigation of the claims of Confucius, Mohammed, Buddha and other founders of religion. These he found to be unsatisfactory to either heart or head. Almost without hope, he took up the systematic study of the question of the punishment for sin. His findings were such as to restore perfect confidence in the Bible as God's inspired word and revelation.

Over 600 leading American newspapers now publish Pastor Russell's sermons weekly, reaching approximately 10,000,000 homes. He is also the author of works entitled "Studies in the Scriptures," over 5,000,000 volumes being in the hands of readers. The sixth million is now in the press. This is a remarkable testimony to the popularity of his writings. Pastor Russell is now on his way to London, having just revisited the pyramids and Palestine. It is expected that his recent investigations will have much to do in his further unsealing the mysteries which for centuries have been kept secret by that "Stone Witness," The Great Pyramid is the subject of an important chapter in one of his books, in which he makes some most interesting applications of the published measure made by the late Piazzi Smyth, formerly astronomer royal for Scotland. Dr. John Edgar with the last year has verified all of Professor Smyth's measurements, which have been used by Mr. Russell. The ruins of the Jews to their promised land, as described in the Scriptures, his knowledge is gratefully treated by Mr. Russell, and he will now be in position to speak with added knowledge regarding the work of the Zionists.

## Will Carry the Gospel to Sailors of New York on Gift Yacht.

[From the New York Evening Journal, June 9, 1910.]

Pastor Russell of the Peoples Pulpit Association today declared that he would use the yacht Angel, presented to him by his association, to carry the gospel to the sailors of New York harbor, and, although complete arrangements have not been made for the work, he said there was no reason for questioning the efficacy of his plan.

"I have in my plans," he said, "one to make a mission boat of the Angel, preaching the gospel on her decks every night of the week in a different language, carrying the Word to sailors of all nations."

"A practical plan would be to moor the yacht at different points nightly and advertise meetings for sailors. Sermons could be in English, German, Swedish, Italian and the tongues of other seafaring nations." The Angel is 125 feet over all and uses both sails and naphtha. Seventy persons can find accommodations in her cabin and more on her deck during the winter. Pastor Russell accepted the Angel, he said, not for himself, but as a trustee for the association.

## AN IMPRESSIVE SCENE.

Tribute of Pastor Russell at Albert Hall to Late King Edward.

[From the Leeds Yorkshire Post.] Pastor Russell of Brooklyn Tabernacle, the great American preacher, who is now on a tour in this country, prefaced his remarks to a huge audience in the Albert hall last night with the following:

"In Germany I learned of the death of your esteemed monarch, Edward VII. I realized that not your nation only, but all Christendom, had lost an unobtrusive but wise counselor, a power for peace and good will among men. I take this opportunity to express to this great audience my sympathy, which, I assure you, is shared by the great majority of my American countrymen. My first thought was that out of respect for the illustrious dead, his family and the nation this service should be postponed, but my second thought was to the contrary. Surely at no more fitting hour could we consider the great hereafter. There is, thank God, a hereafter for kings as well as peasants. Royal mourners and a mourning nation need a message from God's word particularly now, and, since no more representative audience will probably assemble in this capital of the empire, I have a suggestion to offer, which I trust will have your approval. It is that before offering prayer we show our sympathy for the royal family in their bereavement by standing." After about a minute, while silent prayer was offered, Pastor Russell offered prayer generally and requested the great audience to sing one verse of "Nearer, My God, to Thee." The whole scene was very impressive.

## IN SCOTLAND.

The American Preacher's Address in City Hall, Glasgow.

[From the Glasgow Herald.] Pastor C. T. Russell of New York addressed a crowded meeting in the city hall, Glasgow, yesterday evening. As chairman of the International Bible Students' association he is at present engaged in a European tour for the purpose of explaining the doctrines of the Bible in a series of discourses, which take the form of religious lectures. Since leaving America he has conducted meetings in the Holy Land and the principal continental cities and in the course of his present visit to this country, which he has toured on four previous occasions, he has addressed two meetings in the Albert hall, London, where his eloquence and convincing style of preaching have attracted large audiences. In the city hall last night Mr. Russell's subject was "The Overthrow of Satan's Empire." This evening he will lecture in Dundee and tomorrow he will appear in Edinburgh. On leaving Scotland he will cross to Ireland, where he will visit Belfast and Dublin.

## YACHT FOR GOSPEL WORK.

Pastor Russell to Work Among Sailors in the Port.

[From the New York American, June 4, 1910.]

Pastor Russell, president of the Peoples Pulpit Association, was yesterday presented, for Christian mission work, the fully equipped and seaworthy Angel, a naphtha and sailing yacht. She is about 125 feet over all, has seating capacity in dining saloon for seventy persons and is prepared for main deck meetings in fine weather.

As indicated by Pastor Russell in his acceptance of the vessel, unique work will be undertaken in New York harbor. It is said the meetings on board the Angel will be advertised from day to day, stating her moorings as well as the language of the speaker. Those all who desire may keep in touch with this witness of the "gospel of glad tidings to all nations."

"Fortunately, my friends, this gift is not wholly a surprise to me," said Pastor Russell in accepting it. "I had intimations and was in touch with some of you respecting the Angel. Nevertheless I am at a loss for words whereby to express my appreciation of your loving gift. It follows is a suggestion, I dropped respecting the soul needs of the sailors of all nationalities visiting this great port."

"Let me, then, briefly say I accept your gift, not in my own name but in the name of the Peoples Pulpit Association—as its trustee, if you please. May the Angel always and in every language sound forth the praises of the God of all grace!"

## PASTOR RUSSELL RETURNS.

A Two Masted Schooner Presented to Him For Religious Work.

[From the Brooklyn Eagle, June 3, 1910.]

Among the passengers who arrived on the Lusitania this morning was the Rev. C. T. Russell, pastor of the Brooklyn Tabernacle. His arrival was awaited by a number of friends, who presented him with a two masted schooner for missionary work about the harbor.

The schooner that was given Pastor Russell was right on the job as the Lusitania began warping in. From one mast of the sailing vessel to the other was strung an enormous piece of bunting bearing the words "The Angel," that being the name of the craft. Below was a sign reading "God Is Love," and a third sign with a religious admonition followed.

Talking of his trip abroad, Pastor Russell said he expected that within five years Jews would begin returning to Palestine to make that country their home. The preacher visited Palestine during his trip and said he found evidences constantly of a steady progress of the Zionist movement.

The Record in Bedford Is a Unique One.

If the reader has a "bad back" or any kidney ail and is looking for relief and cure, better depend on the only remedy endorsed by people you know. Doan's Kidney Pills relieve quickly—cure permanently. Bedford citizens testify to this. Here is a case of it:

Mrs. William Trout, 202 Spring Street, Bedford, Pa., says: "It would be almost impossible to fully describe how intensely I suffered from kidney trouble. I had nearly all the difficulties that accompany a bad case of this disease. My back was extremely painful and I often had dizzy spells, during which spots appeared before my eyes. Finally my ankles and limbs became swollen and my condition caused me much alarm. When my son procured a supply of Doan's Kidney Pills for me at J. R. Dull's Drug Store, I began their use and they did me more good than all the other medicines I had taken put together. I give Doan's Kidney Pills the credit for restoring me to my present good health." (Statement given October 14, 1907.)

## Re-Endorsement

Mrs. Trout was interviewed on November 13, 1909, and she said: "It gives me pleasure to again recommend Doan's Kidney Pills. I have taken them occasionally during the past two years with good results and they have also been used by other members of the family with great success."

## HECKERMAN LETTER

### Finds Scranton a Beautiful City— Why Not Bedford?

Scranton, Pa., July 18, 1910.

This is called the "Electric City" and it is well named, for in all my traveling I know of no city, as a whole, that is so beautifully illuminated at night. The business men spend thousands of dollars each year for this beautiful display. Scranton keeps in the front line.

During the past fifty years an average of eight persons have come to Scranton every day. Think of it! Let us compare it with Bedford. No, no, I shall not for our dear old town does not have any more people within her corporate limits than it had when Mose Lippel and the writer fought many a battle with rotten eggs, away back in the sixties.

The Lackawanna car shops will open here next January and will need 1,000 men. Other big industries are being pushed forward, so that when the next census is taken by Democratic enumerators the city will have increased even more than in late years. In 1860 Scranton had 9,223 people in her boundaries, while this last census gives her 130,000.

Why must the Bedford boys and girls leave Bedford to get employment?—Simply because those whom God has given five talents have never been willing to do anything toward the enlarging of the most beautiful town in the state, by investing their means in industries which would not only keep at home Bedford boys and girls but would bring hundreds more there. These same persons prefer to invest their money in California and other places, but want all men over 21 years of age to add to their wealth by voting for them.

There are but seven or eight cities which began their corporate existence in 1860. Bedford began hers a few years earlier, but for company's sake we shall put her down as one of the lot: Bedford, Denver, Kansas City, St. Joe, Omaha and Scranton. Scranton is one of the youngest cities. Now, if Scranton stretched out and reached 130,000, why can't Bedford take a "hop, step and jump" and come to the front? If she has been over a hundred years getting 2,800, what will she have in the next hundred? Oh! let us wake up and walk about; mow the burdocks and weeds out of the alleys, if nothing else.

Scranton is a honey-combed city. The coal companies have gotten so greedy that they even rob the pillars and every now and then some of the buildings topple over and get quite on a seaway. This is an objection to it. Bedford has nothing of the kind. As yet not even a paved street.

These coal corporations are very greedy. Why, to get so to cover a grave one must go and get a permit which costs twenty-five cents. The same if you want a few poles with which to prop up your clothes line. A few years ago they sold pea coal to them for ninety cents a ton. Now the price is \$2.60; almost three times the former price. The price for mining this same coal has not been advanced in proportion by any means, hence it is no wonder if the men can't pay their bills. Much more is the wonder when they have only two days work a week.

These pleasant evenings one sees as he passes along in the trolley squads of men here and there playing cards to kill time. The jobbers in all this country complain very much of dull times and slow collections.

The ride over the mountain from Wilkes-Barre to Hazleton never seemed so beautiful as this week. The fields of golden grain and the fields of clover looked most beautiful.

In a suburb of Hazleton there lives a family, Silverman, by name, it consists of father, mother, three sons and one prospective daughter-in-law. She is from New York and a mighty pretty as well as sensible girl. The mother is a stout, portly lady of 42 and is as full of fun and enters into the joys and pleasures of her three sturdy boys. She keeps one of the neatest houses in the land and yet is not always talking about what she

does. The three boys are in business and each one is a steady and sober man, well adapted to work and conduct business in a business way. I would not have you think for a moment that this is the only good family that lives about this beautiful and well paved city of Hazleton, but these boys took Dad for a carriage drive around the city.

The huge cullings banks which the traveler sees at every turn of the head in all this country are always an interesting sight to me. Some of these that have lain here for forty or fifty years have much coal in them and these are now being washed and the coal, as fine as rice grains, is being sent to market. It burns well, but requires a very fine grate. These mines are, as a rule, very deep and one wonders how rats get down to the bottom, live and thrive there and get very bold and savage, often attacking the miners and mule drivers. The weather has been warm, much like spring time in the Sunny South.

Yours truly,  
M. P. Heckerman.

# NEW SCHOOL CODE

Leading Educators Will Discuss Its  
Merits Before Presenting at

## THE NEXT LEGISLATURE

Embraces Everything From Management of School to Erection of Buildings—Copies Sent Free.

A new school code has been drawn to take the place of the code passed by the last Legislature and vetoed by Governor Stuart. The proposed code is a revision of the voluminous bill which caused the General Assembly many weary hours of debate. The contradictory amendments and objectionable features of the old code have been stricken out and its substitute is satisfactory to a majority of Pennsylvania's educators. The new code will be introduced in the next Legislature, which convenes next January.

A meeting of the leading educators of the state is to be held at Harrisburg between Christmas and New Year for a discussion of questions on which there may arise a difference of opinion, before the new code is presented to the Legislature.

Copies of the new code will be sent by the State Department of Instruction to superintendents, teachers and all others. There are 2,812 sections in the code and it embraces everything in connection with the public school system from management and control to the method of constructing school buildings.

Any city, borough or township having a population of 500,000 or over constitutes a first-class school district, with a population between 30,000 and 500,000 a second-class district; between 5,000 and 30,000 population a third-class district, and under 5,000 population a fourth-class district.

In the first-class districts the school finances are to be audited by a school auditor to be elected and to receive a salary of \$4,000 a year. In other districts auditors are to be appointed by the court.

Each present sub-school district is to have a board of visitors who are to visit and inspect the schools at least once every three months. No teacher may be employed who is related to any member of the school board in any district of whatever class. District superintendents are to be appointed by the school board in the first and second-class districts. The creation of this position is made optional in third and fourth-class districts. As many assistant superintendents may be appointed as deemed necessary.

### Nine School Directors

In each school district of the second class there shall be nine school directors elected at large at the municipal election held in November, one thousand nine hundred and eleven, three for two years, three for four years and three for six years, and biennially thereafter, at each municipal election, three school directors shall be elected at large for terms of six years. Their terms of office shall begin on the first Monday of December, following their election.

It is promised that all school buildings hereafter built or rebuilt shall comply with the following conditions:

In every school room or recitation room the total light area must, unless strengthened by the use of reflecting lenses, equal at least 25 percentum of the floor space, and the light shall not be admitted thereto from the front of the seated pupils.

Every school room or recitation room shall have not less than fifteen square feet of floor space, and not less than 200 cubic feet of air space per pupil.

No board of school directors in this Commonwealth shall use a common heating stove for the purpose of heating any school room, unless such stove is in part inclosed with a shield or jacket made of galvanized iron, or other suitable material and of sufficient height, and so placed, as to protect all pupils while seated at their desks from direct rays of heat.

### Doors Must Open Outward

All doors of entrance into any building more than one story high, used for a public school shall be made to open outward and the board of school directors of every district in this Commonwealth shall, before the opening of the school term next following the approval of this act, change the entrance doors of every such school building so that they shall all open outward.

Upon the approval of this act the Governor of this Commonwealth shall, by and with the advice and consent of two-thirds of the Senate, appoint six members of a state board of education, three of whom shall be successful educators of high standing connected with the public school system of this Commonwealth, one of them to be appointed for one year, one for two years, one for three years, one for four years, one for

five years and one for six years, their terms of office to begin on the first day of July; one thousand nine hundred and eleven. The Governors shall annually thereafter appoint a member of said state board of education for the full term of six years and any vacancy in said board shall be filled for the remainder of the term in the same manner. They shall serve without any compensation other than the payment of the necessary expenses incurred in the performance of their duties as members of the board.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

### Osterburg Picnic

The twenty-fifth annual Grangers' Picnic will be held in Oster's Grove, Osterburg, during the entire week of August 15. The management is arranging to make the event bigger and better than ever before in its history. The opening of the new Midland Railroad will be a boomer for this annual encampment, during every day of which it is held there will be something doing in the way of entertainment and pleasure.

An exhibit of stock, farming implements, produce, etc., will be a big feature this year and in an amusement way there will be dancing on a spacious pavilion. The grounds will be open until 10:30 in the evening, when special trains will be run both north and south to convey the excursionists home.

### Funeral of Miss Knisely

Miss Mary Knisely, who met her death by accident, was buried last Friday morning. The funeral services were conducted in the Old Brick Lutheran Church, Friend's Cove, of which she had been a member for over thirty years. The funeral was a large one, being attended by neighbors and friends from far and near.

The deceased had been subject to epilepsy nearly all her life and had passed through a great deal of suffering. While her presence will be greatly missed by her family and friends because of her religious piety and devotion, yet death came to her as a welcome messenger.

Miss Mary Catherine Knisely leaves to mourn her loss her aged parents, John and Sarah Knisely; two sisters, Miss Minnie Knisely and Mrs. Lucy Haviland, of Salem, O.; four brothers, Burton H. and Samuel L., of Friend's Cove, and William H. and Clayton E. Knisely, of Salem, O. "Sunset and evening star"

### The Local Paper

The Press and Printer says: "Whenever you find a man finding fault with a local paper, open it up and ten to one he hasn't an advertisement in it; five to one, he never gave it a job of work; three to one, he does not take the paper; two to one, that if he is a subscriber he is a delinquent; even odds, he never does anything that will assist the publishers to run a good paper, and forty to one that, if the paper is a good one, he regularly borrows the paper as soon as it comes out."

### Blair Physicians Coming

The members of the Blair County Medical Association will hold their annual outing at this place next Tuesday, and a large attendance is expected. The doctors and their families will take dinner at the Arandale Hotel and will spend the day enjoying the beauties of nature. ### Woman's Home Companion for August.

The August issue of the Woman's Home Companion is called "The Good Time Number," and it lives up to that title in every particular, giving ideas for summer enjoyment of every sort. The fiction is of the light, happy variety with, in most instances, the atmosphere of vacation days charmingly depicted. "Mile Mystic," a midsummer comedy by Anna Steese Richardson, will doubtless be acted in many gardens during the summer, and a remarkably timely article on the Outdoor Play, by Walter Pritchard Eaton, will help in a large measure to make al fresco theatricals the popular thing during the summer.

The prize-winning answers to the "Which Girl Would You Love?" contest appear in this month's issue, and among the attractive and practical articles are "How to Build a House-Boat," by Charles E. Searle; and article about Queen Mary, by Philip Hume Forster; and a boy's vacation letters to his mother.

The regular departments are summery and happy, the fashions are particularly fetching and the cookery is cool to even read about.

# SHE SAVED HIM

By BENJAMIN L. TUCKER

Copyright, 1910, by American Press Association

I was riding one day on a road in what was then a territory of the United States in an unfrequented region I belonged to the country, though not to that particular part of it, and was dressed in the costume in vogue there—namely, a woolen shirt and trousers, high boots and sombrero. Hearing the gallop of horses behind me, I turned and saw two men coming. Each man rode a horse and led another. I thought nothing of the matter till they came close behind me, when I heard a rough voice shout:

"Hands up, stranger!"

I knew enough of the practices of the country to understand that if I didn't drop my bridle rein and show both hands up over my head I would get a bullet in me. My revolver was at my hip, but to draw it would insure death. One of the men took in advance of me and kept me covered while the other ordered me to dismount and give up my revolver. I did so, and, taking my horse in tow, he left me the horse he had been leading and together they rode on rapidly.

It was an hour after this that I heard other horses, and several men came up to me and surrounded me. One of them recognized in the horse I rode his property. I told him the story of how I had come into possession of it, but he said I might spare myself such yarns as that, and I was taken back to the nearest town and thrown into jail, charged with horse stealing.

The jail consisted of the second story of a small brick house, the windows of which had been fitted with bars. I was put into one of these rooms. The upper part of the door also was barred, so that the jailer could see a prisoner without opening the door. I knew it would only be while the man who had lost his horse could get together an improvised court before I would be tried and if I couldn't prove I wasn't a horse thief I would be hanged. Being a stranger there, I didn't see how I could furnish the evidence.

It was about sunset of the day I was arrested, while I was pondering on the chances of swinging, that I looked up and saw a young face at the barred opening in my door. By the long hair parted in the middle I knew the owner of the face to be a girl. She appeared to be about sixteen, but she was not much over fourteen. She was looking at me sympathetically. I was twenty-one years and at that age said to have been good looking.

"What 'y' been doin'?" she asked. "Horse stealing." I didn't think it worth while to assert my innocence. "What'll they do with 'y'?"

"Hang me."

A whitish tinge came on her face, and her eyes grew very big.

"D' y' want me to let 'y' out?"

"Can you do so without its being known that it was you who did it?"

"Reckon so. I'm a pretty good liar."

"How can I get away?"

"There's horses below. There's nobody about just now."

"Well, if you can let me out you may save my life."

She went downstairs, brought up a bunch of keys and with one of them unlocked my door. It was then that I got a full view of her. She was tall, well formed and but for her skirts, which were so short they looked as if she had outgrown them, would have passed for nineteen or twenty. She was rather a wild looking thing, not at all tidy, and her hair was uncombed. She ran to a small stable in rear of the jail and led out a horse that stood saddled and bridled. Taking the reins in my left hand, I put my arm around her, giving her a kiss full of fervent gratitude, then, mounting, dashed away. The last glance I gave her showed me a red spot in each cheek. She had doubtless been kissed for the first time by a full grown man.

I had been out an hour, and my horse was getting jaded—he was a very slow beast—when, hearing a gallop behind me, I urged him on, turning at the same time to learn who was coming. I saw skirts fluttering in the wind. Not being afraid of a woman, I slowed up and the next time I turned saw that my pursuer was the girl who had let me out of jail. She was riding astraddle, and her hair was flying.

"Well," I said, "what is it?"

"I just thort I'd go with ye."

I was startled. Many things passed through my brain, the principal being that if caught I would be surely hanged for horse stealing, to say nothing of abduction. But I couldn't be more than hanged and might as well be hanged for both as one.

"Well, come on," I said.

We rode till darkness came and, for the matter of that, till daylight. Then we were safe.

I told the girl, who was a niece of the jailer's wife and had never been taught anything, that we must part for awhile, since I intended sending her to school. She vowed she would stay with me. But I stood firm, promising that if she would remain at school two years she might come back to me.

She consented at last, and during two years we never once saw each other, though we corresponded. Through her letters I was able to note the improvement going on in her. At first they were dreadfully crude; indeed, so much so as to be amusing. But from the first bespoken innocence. At last she returned, and great was the change in her. We are now man and wife.

### Fresh Discovery of an Old Truth.

Helen's enjoyment of the party given in honor of her ninth birthday was nearly spoiled by the ill tempered outbreaks of a very pretty and well dressed little girl who was among her guests. A peacemaker appeared, however, in a plain and rather shabby child, who proved herself a veritable little angel of tact and good will.

After her playmates were gone Helen talked it all over very seriously with her mother. She summed it up in this piece of philosophical wisdom: "Well, I've found out one thing, mamma. Folks don't always match their outsides."—Woman's Home Companion.

### Salt and Health.

Few persons understand the therapeutic value of salt. A little salt in one's drinking water is "good medicine." Salt applications to the skin are wonderfully soothing and whole some. There is nothing better as a wash for the throat and the nasal passages to prevent or to cure catarrhs troubles than a solution of common salt in plain water—the cheapest remedy one can find. Many persons give their eyes a daily bath of cold salt water with satisfactory results.

### The Married Voice.

A dramatic critic has been saying that our most accomplished players cannot reproduce on the stage the "married voice," even when they are married. There is a peculiar domestic note—used at home—which cannot get over the footlights and was never meant for publicity.—London Chronicle.

### Soporific.

"I heard one man," said the playwright, "who attended the premiere of my new play last night complain that it was so late when he got out."

"Yes," queried the critic.

"Yes, and yet the final curtain fell before 10:45."

"Ah, perhaps he overslept himself!"—Catholic Standard and Times.

### In Half Mourning.

"I don't understand you, Linda. One day you're bright and jolly and the next depressed and sad."

"Well, I'm in half mourning; that's why."—Fliegende Blätter.

### Lost Both Ways.

"Did you get in without your wife hearing you last night?"

"No, and I didn't get in without hearing her, either."—Houston Post.

Between friends frequent reproof makes the friendship distant.—Confucius

About seventy-five persons visited R. C. Smith's beautiful park on Sunday and drank of the sulphur water.

Mr. and Mrs. Harry Diehl were the happy recipients of a fine young daughter Sunday morning.

Mrs. Harry Otto was taken sick on Saturday. Dr. Ed. Smith was called in and we are glad to report her better at this time.

A fire was checked at the residence of Thomas B. Nunemaker one day last week in time to save the house from destruction. Mrs. Nunemaker had been ironing and stood her clothes-rack near the stove, going into the garden to get some vegetables for dinner. The wind blew the rack over onto the stove and the clothes, such as sheets, pillow slips, shirts, etc., took fire and had about all burned up when she came back and discovered the fire.

Miss Dessie Blackburn, who has been living in Windber, is now at home seriously ill. Her many friends hope for her early recovery.

### A STRANGE REVERSAL.

Napoleon and Wellington and an Exchange of Residences.

In the days before the Suez canal was opened to the world St. Helena was a frequent port of call for British vessels bound to and from India and the far east. This custom, explains Harper's Weekly, was caused by the need of obtaining supplies for the long voyage, and it was therefore for this reason that the ship which on one occasion bore the Duke of Wellington, then Sir Arthur Wellesley, returning to England from India, touched at the island. The great commander spent one night at Jamestown at the house of a Mr. Balcom.

Ten years later Napoleon Bonaparte landed to begin his six years of exile and was assigned to the same room that his conqueror at Waterloo had occupied. This coincidence came to the knowledge of the duke at Paris during his occupation by the allied forces, and he dispatched the following letter to the British officer then in command at St. Helena:

"I am very much obliged to you for Mr. Simpson's book, which I will read when I have a moment's leisure. I am glad you have taken the command at St. Helena, upon which I congratulate you. You may tell 'Bobby' that I find this apartments at the Elysee Bourbon very convenient and that I hope he likes mine at Mr. Balcom's. It is a stroll enough sequel to the affairs of Europe that we should change places of residence."

### His Quick Wit Saved Him.

An ancestor of the great Tolstoy was an officer in the Russian army and a great mimic. One day he was impersonating the Emperor Paul to a group of his friends when Paul himself entered and for some moments looked on unperceived at the antics of the young man. Tolstoy finally turned and, holding the emperor, bowed his head and was silent.

"Go on, sir," said Paul. "Continue the performance."

The young man hesitated a moment, and then, folding his arms and imitating every gesture and intonation of his sovereign, he said:

"Tolstoy, you deserve to be degraded, but I remember the thoughtfulness of youth, and you are pardoned."

The czar smiled slightly at this speech.

"Well, be it so," he said.

### Willing to Pay.

When the British square at the battle of Abu Klea, in the Nubian desert, was penetrated by the dervishes one of them attempted to spear a gunner who was in the act of ramming home a charge. The Briton brained the Sudanese, but the rammer head split on the man's hard skull. Next day the gunner was sent for. Mistaking the reason and knowing from experience that soldiers are charged for government property which they break, he led off: "Please, sir, I'm very sorry I broke the rammer, but I never thought the fellow's head could be so hard. I'll pay for the rammer so as to bear no more of the case."

You can get this put up at any Drug Store.

For any skin trouble this has no equal.

### Spiced Beets.

Use young, tender beets. Boil, peel and chop fine. Put in a pan with a tablespoonful of butter, two of vinegar and salt and pepper to taste. These are nice served with salt cod and mashed potatoes. If the beets are small use four to each tablespoonful of butter.

## THE SUNDAY SCHOOL.

Lesson IV.—Third Quarter, For July 24, 1910.

### THE INTERNATIONAL SERIES.

Text of the Lesson, Matt. xvii, 1-8, 14-20—Memory Verses, 1, 2—Golden Text, Matt. xvii, 5—Commentary Prepared by Rev. D. M. Stearns.

We have but one lesson in this great chapter which tells us of the transfiguration, the conflict and victory following. His death and resurrection again foretold and the little fish which brought the tribute money. The transfiguration, like the lesson of last week, is recorded by Matthew, Mark and Luke and is in some respects the most remarkable event in the humiliation of our Lord. The glory which here shines forth for a little moment was always in Him, but, like the glory over the mercy seat between the cherubim in the holy of holies, was concealed by the veil which was typical of His body and which was rent in twain when He died on the cross (Heb. x, 20; Matt. xxvii, 50, 51). As He spoke of His sufferings in last week's lesson, He said that some of those present would see the glory of His kingdom before they died. I think I am safe in saying that, while both in the Old and New Testaments the glory is sometimes spoken of without mentioning the suffering, we never find the sufferings without the glory to encourage us in the sufferings. This word about seeing the kingdom before they died has been unnecessarily perplexing to many, because they have not noticed its connection with the account of the transfiguration which immediately follows in each of the gospels and in Mark and Luke in close connection. That Peter, one of the favored three, so understood it seems very clear from 1 Pet. i, 16-18. Dr. Scofield's note upon this is so simple and yet so full and conclusive that I quote it here: "The transfiguration scene contains in miniature all the elements of the future kingdom in manifestation—(1) The Lord, not in humiliation, but in glory (verse 2). (2) Moses, glorified, representative of the redeemed who have passed through death into the kingdom (Matt. xiii, 43; c. i. Luke ix, 30, 31). (3) Elijah, glorified, representative of the redeemed who have entered the kingdom by translation (1 Cor. xv, 50-53; 1 Thess. iv, 14-17). (4) Peter, James and John, not glorified, representatives (for the moment) of Israel in the flesh in the future kingdom (Ezek. xxxvii, 21-27). (5) The multitude at the foot of the mountain (verse 20), representative of the nations, who are to be brought into the kingdom after it is established over Israel (Isa. xi, 10-12), etc."

Six or eight days after the saying of Matt. xvi, 28, Jesus took these three men, who were also with Him when He raised to life the ruler's daughter, and in Gethsemane and, as Luke tells us, went up into a mountain to pray, and it was as He prayed that He was transfigured. The eight days of Luke certainly include the six of Matthew and Mark and give the extreme limit of the time intervening. His appearance reminds us of Rev. i, 13-16, and of the assurance of 1 John iii, 2, that we shall be like Him. The more we consider this the more we shall be like Him now, and it is so necessary, for the world needs some manifestation of His life in these mortal bodies (11 Cor. iv, 10, 11). It is most interesting to notice that the word translated "transfigured" is used only in this incident in Matthew and Mark and in two other places, Rom. xii, 2; 11 Cor. iii, 18, in the former being translated "transformed" and in the latter "are changed" and both bearing upon this very point of likeness to Him now. A sight of Moses and Elijah, who had been absent from the earth, one about 1,500 years and the other about 900, gives us a glimpse of the reality of the unseen world. The topic of their conversation (Luke ix, 31) shows us how great is the importance of the death of Christ, the benefits of which they had been in a measure enjoying, as on a promissory note, for so many centuries and by virtue of which alone any one from earth can enter heaven. The disciples were afraid, they were also heavy with sleep, and Peter talked, not knowing what He said, and suggested making tabernacles for the Lord Jesus and for Moses and Elijah. Then came the bright cloud and overshadowed them, and when it was past Jesus was found alone (Luke ix, 32-36).

Out of the cloud came the voice of the Father, saying for the second time, "This is my beloved Son, in whom I am well pleased," but now He added, "Hear ye Him." The disciples, being afraid, fell on their faces, but Jesus touched them and said, "Arise and be not afraid." In the sleep and fear and foolish talk of the disciples see with what human weakness our Lord has always to deal, but in His "Be not afraid" see the loving, compassionate Saviour with whom we have to do. May we ever remember the words of Mark ix, 8, "They saw no man any more save Jesus only with themselves." How very necessary it is that we should always see and hear no one but "Jesus only."

In verses 11-13 our Lord plainly says that the prediction of Malachi concerning Elijah must be fulfilled. John the Baptist, who came in the spirit and power of Elijah, being rejected, as was also the Lord Jesus, Elijah must come as the herald of Christ at His second coming in glory. From every mount of privilege we come down to some fresh encounter with the great adversary the devil.

and round and trimmed with valencienne lace and insertion. The sleeves are short and trimmed with lace. They are to be had in blue, pink or brown all over eyelet embroidery.

A distinctive hat worn recently by a pretty girl was a bright oak brown stretched nino shape, trimmed with real oak galls, their hard "wooden" balls on their own twigs, finishing up with a mass of realistic oak leaves, pale green and reddish brown. The romper that is made with sleeves in one with the bodice is much appreciated by busy mothers, as it is so easy to run together. The rompers illustrated are made of blue chambray. At the front the body and leg portions are in one, but at the back they are separate. JUDIC CHOLLET.

PASTOR RUSSELL IN CHARACTERISTIC ATTITUDE

### A MISSIONARY SCHOONER.

One Was Presented to Pastor Russell For Harbor Work.

[From the New York Times, June 4, 1910.]  
The Rev. C. T. Russell of Brooklyn received a surprise on his arrival on the Cunard liner Lusitania yesterday. His friends presented to him a two masted schooner for missionary work in and about this port.

They not only gave him the receipt for the craft, but she was waiting alongside the Cunard pier with many flags flying as a welcome to her new owner. From one mast to another was strung a long canvas bearing the inscription "God Is Love" and the name of the schooner, the Angel. There were other inscriptions of a religious character waving in the wind.

### AMERICA'S "SPURGEON."

England's Leading Daily's Opinion of Brooklyn's Great Preacher.

[From the London Daily Mail.]  
One of America's most remarkable men, Pastor Russell of Brooklyn tabernacle, who is by common consent the most prominent pulpit orator in the United States, has recently arrived in London. He is the Spurgeon of America and is visiting in England in connection with the May meetings.

### BACK FROM PALESTINE.

Pastor Russell's Return From Visiting Holy Land and Egypt.

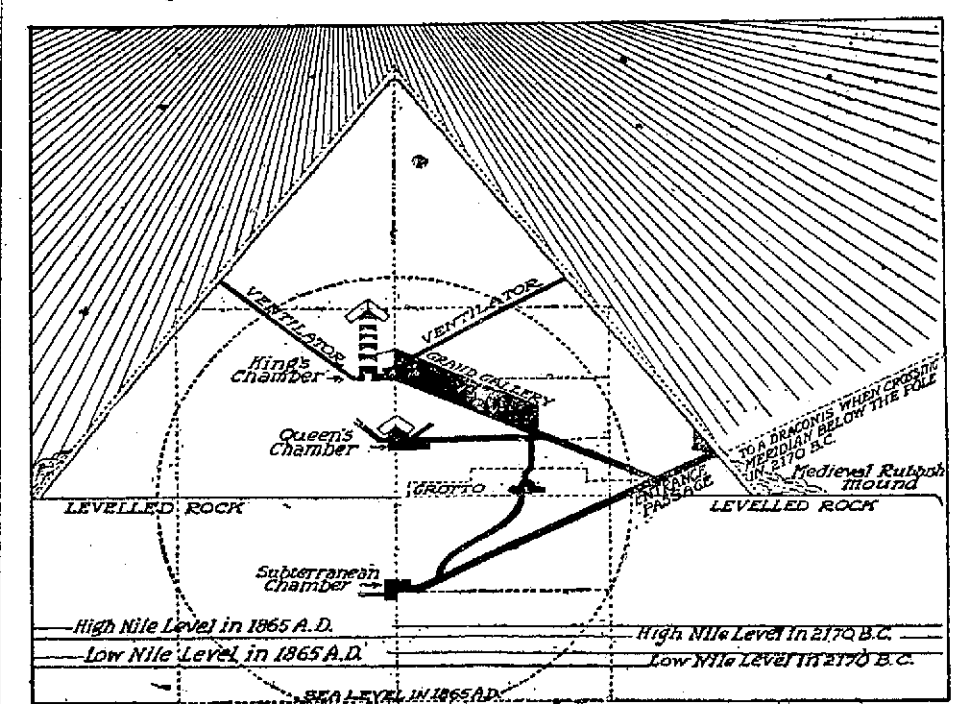

[From N. Y. Herald, Sunday, June 5, 1910.]  
Pastor Russell of the Brooklyn Tabernacle has returned from a trip to the Holy Land and Egypt and will address the public today at the Brooklyn Academy of Music. Mr. Russell has certain interesting ideas regarding the Great Pyramid and its symbolic teaching and believes the time is at hand for the return of Israel to Palestine. He is a very pronounced believer in the Zionist movement.

The present is the second visit to the Pyramid and to Palestine, the land once Israel's. In one of his works published more than twenty years ago Mr. Russell applied certain measurements of pyramid passages, an inch for a year, as symbolically showing the length of divine favor upon the Jews from the time they became a nation down to the year A. D. 70, when Jerusalem was destroyed and the Jewish polity ended.

In the same work he declared also that certain passages symbolically indicated the length of time during which the nation of Israel would be cut off from any and all special manifestations of divine favor, and when this would end the favor of God would again return to them.

## GOD'S STONE WITNESS THE GREAT PYRAMID.

The Ancients in recounting the Seven Wonders of the World, placed at the head of the list, the Great Pyramid. Its interior passages evidently symbolically represent the Ages and Dispensations in the Divine Government in connection with humanity. Its witness is only beginning to go out to the world of mankind. It is commonly credited to the foolishness of an Egyptian King. Such claims as to the other Pyramids which are inferior to this one, are not questioned, but the great Pyramid evidently was constructed under Divine supervision. In symbolic language the Pyramid interprets itself if figured an inch for a year. The downward passage way from the entrance to the bottomless pit represents the way traversed by the human race to death. The ascending passage way represents an escape from death and corresponds to the giving of the Law to Israel: "If ye do these things ye shall live by them." The intervening years to the end of Jewish favor, A. D. 32, has its exact fulfillment in Pyramid inches, bringing us to the Grand Gallery, which symbolizes the Gospel Age, the period of the High Calling, the Lord coming "that we might have life and that more abundantly." The grand scheme of

THE GREAT PYRAMID WHICH PASTOR RUSSELL BELIEVES HAS SYMBOLIC BIBLICAL SIGNIFICANCE.

Pyramid passage way measurements tells us that the Gospel Age is soon to end and that the time for Divine favor to return to Israel is about due. The measurements seemingly say that by 1915 the Jews should be re-established in their Promised Land.

The Pyramid covers an area of about 13 acres; is 486 feet high, and 764 feet broad at its base. It is estimated to weigh about 6,000,000 tons. It contains stones weighing three or four times as much as one of the obelisks. Some of the stones are thirty feet in length, and fit so closely together that you may run a pea knife over the surface without discovering the breaks between them. There is now no machinery so perfect that it will make two surfaces thirty feet in length which will meet together as these wonderful stones in the Great Pyramid. Its four corner stones are sunken in the earth in fulfillment of Job xxxviii, 8-7. It is supposed to have been built B. C. 2170, at which time the star, Draconis, symbolizing death, looked down the descending passageway, and at which time the Pleiades were in line and looked down the ascending passageway leading to life, the Pleiades representing the throne of Jehovah, the source of all life-giving power.
